### **EMERGENCY DECLARATION TO REPAIR DAMAGE TO CITY OF SAN MARINO STORM DRAIN AND STREET BOARD MOTION OF OCTOBER 26, 2004, SYNOPSIS 29-A**

On October 26, 2004, your Board made a finding that an emergency situation existed that required immediate measures to be undertaken to protect a City of San Marino storm drain and section of street from additional damage from future rainstorms and authorized the Interim Director of Public Works to enter into and administer a contract with Mladen Buntich Construction Company (Buntich), a private contractor, to perform the emergency work to prevent additional damage to these public facilities. The San Marino City Council also declared a local emergency; and City officials are working collaboratively with Public Works to construct the repairs in a timely manner to protect local residences from potential flooding and to reopen the roadway.

Buntich has completed all the repairs to the damaged storm drain, water line, and sewer; filled the sink hole; and fully restored the street and parkway area.

Since all the repair work has been completed and the street has been reopened to traffic, the emergency situation no longer exists; and there is no longer a need to continue the emergency action. Accordingly, we recommend that the Executive Officer of the Board no longer list this item on the Board agenda.
